POWER OF LEARNING POWER OF PLAY POWER OF PRESCHOOL

Creative Curriculum

Study: Reduce, Reuse, Recycle Reduce, Reuse, Recycle

Study—Exploring the Topic: What do we know about reducing, reusing, and recycling? What do we want to find out? Have you ever talked with your child about the items you throw away? Has she shown interest in what is inside your trash can? A study about reducing, reusing, and recycling provides her with opportunities to learn about ways to reduce the amount of trash she produces, how to reuse trash items in creative and fun ways, and which trash items she can recycle and turn into something new!

Throughout the study, your child will learn concepts and skills in literacy, math, science, social studies, the arts, and technology.
