Camera Three will be located directly over the driver’s left shoulder pointed in the direction of service door, high enough to view the driver, the stairwell area and the service door entrance clearly. Vehicles with a capacity of 20 or less ambulatory passengers, the mid-bus camera may be eliminated. A documented chain of custody for all video recordings that are copied and/or shared for any reason will be maintained by the school bus contractor’s office for at least 13 months. All video camera systems must have a delayed power-off system ensuring the camera will continue to record for a minimum of 15 minutes after the bus is turned off. The system must have the ability to send video recordings and detailed reports via email (example - Dropbox or Sharefile transmission software) to the school’s administrator and the School District’s Transportation office. All video camera use on buses servicing the Lakewood School District and all images digitally stored from those cameras shall be used in a manner consistent with the policies and procedures as established by the Lakewood Board of Education.

6. GPS System - A GPS system will also be required on all buses and may be independent or part of video system as long as a detailed report can be quickly produced and immediately forwarded to the district transportation office whenever required.    a) Immediately inform the Transportation Coordinator and/or the School Business Administrator of the district board of education providing the contracted transportation of any accident which involves an injury, death, or property damage,

   b) Complete and file the accident report as prescribed by the Commissioner of Education and deliver it to the principal(s) of the receiving school(s) by the conclusion of the next working day, and

3. The School District also reserves the right to remove from service to the School District any driver, aide, and/or vehicle deemed to have personal and preventable responsibility for causing an accident, regardless of whether or not a post-accident citation was issued by the investigating police authority.
REPORTING STUDENT LEFT UNATTENDED ON THE SCHOOL BUS

1. Every driver and bus aide assigned to a school vehicle shall immediately inform the administrator or principal of the subject school, along with the chief school administrator of the school district that is providing for the transportation of their school whenever an incident occurs resulting in a student being left unattended on their bus at the end of the route. School district or school bus contractor personnel who discover the child left unattended, or to whom the discovery is reported that a student has been left on a school bus, shall immediately report the incident to the Transportation Supervisor. The Transportation Supervisor will immediately file the required report form with the New Jersey Department of Education. A student is considered to have been left unattended on the school bus at the end of the route when the driver has left the vicinity of the bus. Failure to follow this procedure will be considered a very serious infraction and could place the contractor in breach; as well as possibly causing the initiation of disqualification procedures.

DRIVERS/AIDES

1. The driver shall be a reliable person of good character who shall possess the qualifications and communication skills necessary to perform the duties of the position, and comply with the rules set forth for drivers in all federal, state and local regulations including, but not limited to, the Omnibus Transportation Employee Testing Act, N.J.S.A. 18A:39-17 through 20 (background check), and tuberculosis testing.

2. If a student assigned to a special education route is not present at the assigned bus stop for three consecutive days, the contractor shall report this absence to the district Transportation Supervisor.

3. The bus driver shall be in full charge of the school bus at all times and will be required to report unmanageable students to the district transportation supervisor and principal of the receiving school on the district prescribed incident/discipline form.

4. A bus aide assigned to a route awarded by this bid shall be a reliable person of good character who shall possess the qualifications and communication skills necessary to perform the duties of the position, and
will be required to comply with the criminal background check and tuberculosis testing as prescribed by law.

5. Bus aides shall attend to the special needs of students, maintain order on the vehicle to ensure the safety of all students, assist students getting on and off the vehicle as needed, and other duties which may be specified by the board of education.

6. If, in the judgment of the Board of Education, any driver or aide assigned to a vehicle operating under a contract awarded by this bid shall be deemed to be an unsuitable person for their position because of lack of skills necessary to perform their duties, inability to control students, failure to comply with the rules and regulations, incapacity, unbecoming conduct, or other good cause, the contractor may be required to remove the driver and/or aide from the route or all district routes. If the contractor fails to comply with this provision, the contractor may be required to show cause why this failure to comply is not deemed to constitute a breach of contract and may set aside and annul the contract.

Additional Driver/Aide Requirements—The Contractor agrees to submit a list of certified drivers (including substitute drivers, mechanics potentially to be used as drivers, and supervisory/clerical personnel potentially to be used as drivers) and aides in service to the School District with their route identification numbers, vehicle assignments, vehicle identification number, license plate number, the name of the driver, the name of the bus aide (where applicable) and the schools to which they are transporting School District students by October 1st of each year and update this list within seven (7) business days as permanent changes of drivers and/or aides are made. Driver and aide information shall include, but not be limited to, the following information:

1. drivers name and/or aides name;
2. a photocopy of the driver’s current commercial school bus license
3. a photocopy of the driver’s current motor vehicle abstract records;
   and

Periodically, and throughout the school year, the School District at its own discretion may request updated listings of certified drivers and aides with their route identification numbers, vehicle assignments, and schools to which
they are transporting students. The Contractor shall provide this information within seven (7) business days that the request was made.

The Contractor shall make the bus driver and/or aide available for any student disciplinary hearings, pursuant to any School District student disciplinary investigations that are required. The cost of the bus driver’s time and the bus aide’s time to attend these meetings shall be borne entirely by the Contractor.

The School District shall have the right to require the removal from service to the School District of any person (driver, aide, mechanic, supervisor, or office personnel), or the reassignment of any person from one route to another route, who in its opinion, is not qualified or appropriate for their present assignment. Suitability for assignment is a critical consideration for the overall safety and efficiency of the contractor’s delivery of services to the Lakewood School District.

If the School District feels it is necessary, School District reserves the rights to assign its own bus aide, nurse, or other responsible adult employed by the District to a Contractor’s bus in order to provide assistance and/or supervision on a “as needed” basis while the subject bus is in service to the School District. Such aides, nurses, or other responsible adults shall be a paid and vetted employee of the School District. The Contractor will cooperate with the School District in facilitating the placement of these School District assigned personnel on any of the Contractor’s vehicles as deemed necessary.

All drivers and aides in service to the School District must be able to clearly communicate with the students. The driver is required to participate in bus evacuation drills twice during the school year. He/she must have the skills and knowledge required to train the students how to safely evacuate the school bus, in case of emergency.

The Contractor shall ensure that all drivers and employees are dressed appropriately (company logo shirts and photo ID badges are now required, also shorts may be worn providing that they at least touch the knee or are longer) and in a manner that will consider the sensitivities of the children transported and/or appropriate for interaction with members of the community in the course of their work.
The Contractor shall ensure that all drivers and aides will fully comply with the Addendum #2 “School Bus Driver and Aide Code of Conduct”.

2. The contractor shall execute the contract and submit it to the district board of education with all required related documents in order for the district board of education to comply with the timeline for submission of contracts to the county superintendent. Failure to do so may result in a delay in the scheduled payment of services. Contractors shall visit the Department of Education’s Student Transportation website to become more familiar with the requirements of the contract to be executed.

3. Payment for the month of June will be made by July 30th.

4. Per Diem contracts will be calculated on the actual number of days transportation services were performed.

5. Payments are subject to approval by the board of education. Therefore, payments may be delayed depending on the Board’s meeting schedule.

EMERGENCY PROVISIONS

1. In the event the school is closed due to inclement weather or other emergencies, the contractor shall be notified as soon as possible by the public school authorities providing transportation. Contractors are advised to also listen to school closing announcements broadcast over the local networks.

2. In an emergency situation where the contractor cannot meet their commitment for any circumstance beyond their control; or if the school
has an emergency change in schedule, the contractor must notify the Transportation Supervisor as soon as the coverage challenge is discovered. This emergency will be reviewed and fines may be waived at the discretion of the board of education.

**BASIS OF BID AND ADJUSTMENTS**

1. The bidder shall submit the bid on the bid sheet contained in these bid specifications. Bids shall be submitted on a per diem or per annum basis as indicated on the enclosed bid sheet only. Any other bid sheets are not acceptable and if the authorized bid sheet is not used, it will be cause to reject the bid submission in its entirety.

2. If any change in the described route results, the amount of the contract shall be adjusted as specified in the bid. The adjustment must be stated in some amount, even if it is stated as “Zero” or “$0.00”. Bids which leave an adjustment amount section empty with no number noted as the adjustment amount will not be accepted.

3. The net result of any mileage adjustment to a nonpublic school transportation contract shall not exceed the maximum cost per student in accordance with N.J.S.A. 18A:39-1a. Calculations to determine the per student cost shall include all students on the route, public and nonpublic.

4. The increase/decrease mileage adjustment for any route contracted by the board will require a daily difference of at least five additional or decreased miles before any adjustment is applied.

**INSURANCE COVERAGE**

1. Unless otherwise specified by the board of education, the contractor shall provide automotive liability insurance in the minimum amount required by Motor Vehicle Commission and Department of Education regulations. This board of education requires an insurance coverage greater than the minimum amount and the contractor shall provide automotive liability insurance in the amount of $5,000,000 combined single limit per occurrence. Bidders will be required to provide, with the bid, evidence of their ability to obtain the required insurance coverage. A certificate of insurance for the duration of the contract is to be presented by the successful bidder. The certificate of insurance shall state that the contracting board of education is an additional insured party to the policy.
2. The district board of education and the Executive County Superintendent shall be notified by the insured whenever any policy is cancelled. Notification shall be made within 48 hours of the receipt of the notification of the cancellation by the insured, and well before the cancellation takes effect.

3. The contractor will protect, defend, and save harmless the Board of Education from any suits or actions of every nature and description brought against it for or on account of any injuries or damages received or sustained by any party or parties by or from any acts of the contractor, its servants or agents as a result of the performance of the contract.

**BID GUARANTEE**

1. Each bid shall be accompanied by a bid bond, cashier’s or certified check for a minimum of five percent (5%), but in no case may the certified check, cashier’s check or bid bond exceed $50,000. No other form of guarantee is authorized. This guarantee shall be made payable to the Board of Education. Such deposit shall be forfeited upon refusal of a bidder to execute a contract; otherwise, checks shall be returned when the contract is executed and a surety (performance) bond is filed with the Board of Education. The bid guarantee shall be identified by the bid number assigned to the bid for which it is submitted. The bid guarantee for all unsuccessful bidders, except for the three lowest bidders, will be returned within 10 days after the bid opening (Saturdays, Sundays and holidays excluded). The annual contract amount of per diem contracts shall be calculated by multiplying the total per diem cost by the number of school calendar days.

2. Each bid shall be accompanied by a Consent of Surety.

**PERFORMANCE GUARANTEE**

1. A corporate performance surety bond in an amount equal to the annual amount of the contract shall be required of the successful bidder. The performance guarantee shall be identified by the multi contract number or route number for which it is submitted. Each bid shall be accompanied by a signed Prescribed Form of Questionnaire, included in these specifications. The bond to be provided for per diem contracts shall be equal to the total per diem bid multiplied by the number of school calendar days.

2. If personal bonds are permitted by these specifications, a contractor who submits a personal bond will ensure that the bondspersons providing the performance guarantee provide a list of all school districts in which they
are bonding contracts and the amount of the contracts bonded. Additionally, evidence of the value of the property listed as security shall be provided upon request.

3. For the purpose of this bid, personal bonds will NOT be permitted.

**BREACH OF CONTRACT/PENALTIES**

1. In the event the contractor fails to provide service in accordance with these specifications and stated requirements, the contractor shall be considered in breach of contract. Cancellation of the contract and/or enforcement of contractor’s performance bond may result.

**TRAINING PROGRAMS**

1. The contractor will ensure that drivers and aides are properly trained to perform their duties.

2. The contractor shall administer an ongoing monthly safety education program for all permanent and substitute drivers and bus aides; and provide evidence of the training in the form of a clearly identified sign-in sheet and program syllabus to the board of education immediately following the successful completion of each month’s training program or exercise.

3. Drivers and aides are required to actively participate in scheduled school bus evacuation drills.

**ROUTES**

1. Within ten days of the start of the contract, the contractor shall submit to the district board of education a description of the actual streets traveled for routes for the transportation of special education students and nonpublic school students for which the streets to be traveled are not described by the board of education on the route description contained within the bid.

2. Under no circumstances will drivers be permitted the discretion of changing a child’s bus stop to a “HOUSE STOP”. The contractor of a route done with unauthorized house stops created by the driver will have the option to pay a daily penalty equal to the amount of the per diem cost for
the route or $300 whichever is greater; or, suspend the driver without pay for a first offense or terminate the driver for repeated offenses.

3. Bus routes and bus stops shall be provided to the Contractor by the School District. During the course of the operation of the routes from the first day of school until October 15th, the Contractor is authorized to adjust the structure of the routes without prior authorization of the School District; but is required to inform the School District Transportation Department in writing within five (5) business days of what structural changes have been made. However, the Contractor is not authorized to add, change, or eliminate any bus stops without the prior written approval of the School District. The route structural changes are subject to the approval of the School District. Once the routes are firmly established for the school year, but not later than October 15th, the Contractor shall not deviate from the design designated routes except by prior written consent of the School District or in the case of an emergency, which shall be reported promptly thereafter to the School District. Routes may be modified at the sole discretion of the School District, and they shall be subject to the needs of the School District and the provisions of the rules of the State Department of Education as well as the policies and administrative regulations of the Lakewood Township School District.

4. The School District reserves the right to revise or make modifications of any and all routes subject to the needs of the School District, the provisions of the rules of the State Department of Education, and the policies and procedures of the Lakewood Township Board of Education. Such revision shall be deemed an ordinary part of the contract. Any revision that shall create an increase or decrease of mileage, not to exceed five miles of the total base service mileage as of the date of the original route or the renewed route for subsequent years, as specified in the routes attached, shall be deemed an ordinary part of the contract. A monthly adjustment will be made for mileage in excess of 5 miles. Said adjustment will result in either a credit to the School District when mileage is decreased by five miles or more, or as added compensation to the Contractor when mileage is increased by five miles or more.

The School District reserves the right to ask for a copy of the Contractor’s records to validate the additional mileage claimed and also reserves the right to validate the mileage on its own. In the event of a discrepancy
between the Contractor’s claim of mileage and the School District review of mileage, the School District review shall prevail.

5. Within five (5) business days prior to the first day of service under the contract each regular driver will make at least one (1) trial morning and one (1) trial afternoon run (also known as “dry runs”) at the times in which the routes will be operating, and these trial runs are to include all stops assigned on the route. The Contractor will identify any routes where there is a projected indication of an inability to perform regularly scheduled routes in a safe and timely manner. The Contractor will advise the Transportation Department of the School District in writing within five (5) business days of any problems along with any suggestions for improvement.

Failure to provide the School District with information on any problems regarding the structure of the route(s) will result in the District assuming the route is operating as it was initially designed; and therefore, any unreported changes by the Contractor will be considered a violation of the contract. For bus drivers permanently assigned to routes after the start of school, within five (5) business days prior to their operation of the route, they will make at least one (1) trial morning and one (1) trial afternoon run at the times the route(s) will be operating (again, also known as “dry runs”).

6. Vehicles shall arrive between ten (10) and five (5) minutes before the scheduled school start time. In the afternoon they shall be at their designated parking areas no later than ten (10) minutes prior to the scheduled dismissal of school unless the School District shall determine otherwise.

7. Once the vehicle arrives at the school, the bus driver shall remain within their vehicle.

MODIFICATIONS

1. Any modifications to these specifications after the public advertisement for bids and prior to the scheduled bid opening will be made known by certified mail to all bidders who requested specifications.
2. The Board of Education reserves the right to make modifications of routes subject to the provisions of the bid and of the rules of the State Board of Education.

3. The Lakewood Township Board of Education reserves the right to waive whatever rights it deems appropriate as they relate to this addendum, if it determines the waiver to be in the best interest of the School District.

NON-PERFORMANCE/DAMAGES

The School District has included non-performance/damages in the event that financial remedies are needed to ensure a high-quality transportation service. It is not that School District’s intention, nor desire, to utilize this
option unless it is deemed necessary by the actions of the Contractor. The School District envisions a cooperative and harmonious relationship with the Contractor that is based upon mutual trust, and understanding of the responsibilities of both parties, and conforms to the requirements of the contract and all addendums.

Prior to the implementation of any penalty, the Transportation Supervisor will attempt to contact the Contractor or his/her representative to determine if there are any mitigating circumstances that have caused the service issue that might lead to the issuance of a penalty. After reviewing the circumstances surrounding the non-performance, the Transportation Supervisor will make a decision within five (5) business days of the occurrence and implement the penalty if appropriate.

If the Contractor disagrees with the determination of the Transportation Supervisor, the Contractor has the right to appeal the Transportation Supervisor’s decision within five (5) business days to the School Business Administrator or his/her representative who will make the determination within five (5) business days. If the Contractor disagrees with the determination of the School Business Administrator or his/her representative, the Contractor has the right to appeal the decision within five (5) business days to the Superintendent of Schools. The Superintendent of Schools will make a determination with thirty-five (35) business days and such decision will be final.

If at any point in the appeals process a decision is made in favor the Contractor, the Contractor shall be reimbursed for any verifiable financial loss he/she incurred specifically related to the appeal.

In view of the difficulty the School District will suffer by reason of the defaults on the part of the Contractor, the following sums shall be deemed damages for breach of the contract.

1. If the Contractor does not have sufficient number of spare vehicles to replace a vehicle in service to the School District that is undergoing maintenance, inspection, or is out of service for any reason, the School District shall deduct from the monthly payments the pro-rata cost of the vehicle(s) for that day contracted through other sources to meet the deficit plus an additional $50.00 per bus.
2. In the event the Contractor does not have the required operational video/GPS systems on any bus used to service this contract, the Contractor shall be liable for penalty of $50.00 per day/per bus where such devices were absent or not working on the first offense for any vehicle in their fleet. For a second offense for this or any other bus in the subject Contractor’s fleet, a fine will be assessed at $300.00 per bus/per incident in violation of the specifications. Third and subsequent offenses committed by this bus or any of the bus in the subject Contractor’s fleet will be assessed at $500.00 per bus/per incident. These systems are deemed to be very important and the board absolutely requires them to be operating as expected.

3. This contract envisions a quality, responsive, transportation program that minimizes the School District’s involvement in the day-to-day operation of the program. Should operating problems occur that require the involvement of the School District; the School District reserves right to officially put the Contractor on notice that such problems may be subject to fines for service failure(s). Should similar operating problems recur within thirty (30) days, the School District reserves the right to deduct $200.00 or the per diem rate (whichever is greater) for each poor-performing route from the monthly payment for each such occurrence. If the problem continues beyond thirty (30) days, the School District reserves right to deduct $300.00 or the per diem rate (whichever is greater) from the monthly payment for each occurrence.

4. If at any time the Contractor uses a driver in the performance of this contract, who does not meet the requirements of State of New Jersey, including, but not limited to, appropriate licensure and/or training, the Contractor is liable for deductions of $300.00 per day/per unqualified driver. This fine(s) will be assessed for each day the deficient driver(s) performed driving services on behalf of the Lakewood Township Board of Education.

5. The School District considers the retention in service to the School District of the driver, aide, or vehicle for more than 24 hours after the School District has instructed the Contractor, in writing, that the
driver, aide, or vehicle is to be removed from service, as a serious breach of contract. If this flagrant contract violation should continue to occur, the School District will withhold payment for the route(s) driven by the driver, or on which the aide serves, or where the vehicle is continued to be used plus $100.00 for each day that the subject driver, aide, or vehicle remains in service to the School District.

6. A reliable transportation system is important to meet the educational requirements of the students in School District. To this end, students must be brought to school in the morning in a timely and consistent manner, and students must be picked up at school in the afternoon in a timely manner. If a bus arrives later than five (5) minutes before scheduled school start time or is not in its designated area at least ten (10) minutes before the scheduled school end time for more than ten (10) days in the school year in the morning and/or afternoon, the School District reserves the right to deduct $50 or the per diem rate (whichever is greater) per bus for each late arrival at school from the monthly billing retroactive to the first lateness. Should situations beyond the control of the Contractor cause the late arrival (i.e. weather, traffic, etc.) the penalty may be waived at the Board’s discretion.

7. Drivers are required to traverse their routes at least five (5) days before they begin the regular operation of the routes with students on board. The purpose of this requirement is to insure that drivers are familiar with the routes, including the location of bus stops and the school drop-off and pick-up locations, thereby ensuring the driver is able to operate the routes in a timely manner. Failure to be knowledgeable of the routes (including the location of bus stops and the school) shall result in a deduction of $100 or the per diem rate (whichever is greater) per bus for each route for each day the bus driver is unable to operate them properly and timely as a result of not performing this preliminary practice exercise (also referred to as “dry-runs”). If substitute drivers are assigned to operate a specific route for five (5) or more consecutive school days, the substitute driver will be considered a permanent driver for the purpose of this requirement.
8. In the event of a strike or other occurrence causes an interruption of services for more than 24 hours, the School District shall have the right to secure such other transportation as may be necessary and charge the cost of this other transportation to the account of the Contractor. There will be no payment to the Contractor for days no service is provided, and the Contractor is responsible for the financial liability this interruption inflicts upon the School District.

The Contractor will be liable for any incremental costs, administrative costs, and reasonable attorney fees that the School District may incur in seeking another Contractor and having the other Contractors operate its routes for the interrupted period of service. In addition, the School District retains the right to cancel the contract of these interrupted routes in order to secure another school bus operator. In this event, the Contractor shall also be responsible for any incremental costs (including reasonable attorney fees and administrative costs) to operate the School District’s transportation program for the remainder of the school year.

9. Failure of the Contractor to immediately report an accident involving a bus in service to the School District or an injury involving a student on a bus in service to the School District; not submitting all accident reports within reasonable time (including the Contractor’s internal forms); interfering, or not allowing the School District to participate in the Contractor’s internal investigation, or preventing the School District from conducting its own accident investigation will result in a penalty of $300.00 per accident per day the investigation is delayed from moving forward.

10. The Contractor is to provide the School District with any parental complaints, concerns, or information requests they receive. Parents are the direct public “consumers” whose children are served by the School District. Failure to respond appropriately within a five (5) business days of receiving a complaint or concern will result in a penalty of $50.00 per day beginning from the sixth (6th) day onward for a maximum of $300.00. Ignoring parent complaints will not be tolerated.
11. If at any time the Contractor fails to provide sufficient personnel (i.e. supervisors, drivers, aides) or sufficient number of vehicles as required by the contract, the School District shall deduct from its monthly payment $300.00 per day/per vehicle or per day/per person for each occurrence said personnel or vehicles are not supplied, plus there will be no payment for services that were not provided.

12. Given the legal and professional mandates the School District has to be responsible for its transportation program, it is very important that the School District has full information on the drivers, aides, and vehicles used by the Contractor. In the event the Contractor fails to provide the information within the time stipulated in the specifications, the Contractor shall be liable for penalty of $300.00 per day for each driver, aide, and/or vehicle that the requested/required information is withheld.

13. As noted in the specifications, the Contractor and/or drivers are prohibited from changing any route(s) or bus stop(s) without prior School District approval. If such unauthorized changes are made, the School District reserves right to withhold payment for any route(s) that are modified in an unauthorized fashion. Quick remediation by the contractor may result in the Board waiving this fine.

14. At the board’s discretion, it may choose to keep contract in force, but impose a daily penalty in the amount equal to the per diem payment (or $300.00 per day, whichever is greater) for the subject route for each day of noncompliance. Noncompliance includes, but is not limited to, arriving outside the specified window (early or late), no route ID Card for current route, multiple route IDs displayed, no two-way radio, no GPS system, no video recording system, etc.

15. If the Contractor fails to provide timely transportation pursuant to the scheduled routes and times set forth herein, the Contractor shall pay to the Board of Education the sum of $300.00 per day as liquidated damages, not as a penalty, for each school day the Contractor fails to provide timely transportation pursuant to the scheduled routes and times set forth in the parties’ agreement. If circumstances beyond the contractor’s control are causing the service issue, the Board may waive this fine on a “case by case” basis.
It is especially understood by the Contractor that the School District, by not exercising its rights, or by waiving any of the provisions of this contract, or by exercising the provisions of this contract in a particular way, shall not be deemed to have waived any of its rights or the contract requirements.

**DISPATCHER**

A full-time dispatcher must also be located at the site to ensure that drivers are personally visually engaged by the dispatcher each morning and afternoon prior to starting their scheduled runs.

**LICENSES**

The Contractor and its employees shall acquire and maintain valid permits and licenses required by law. All costs and fees for such licenses shall be the sole responsibility of Contractor and/or the drivers under its employ.

**SPECIAL EDUCATION STUDENTS**

Drivers and aides assigned to transport special-education pupils on dedicated special education buses or vans shall be given special training concerning the techniques of transporting such children. Such training must be acceptable to the School District. The Contractor is also required to place aides on dedicated buses or vans transporting special education students and on other vehicles designated by the Lakewood Township Board of Education.

Drivers and aides who are not regularly assigned to dedicated special education routes and who are transporting special education students to athletic and field trips must also possess the special training in techniques of transporting such children.

Contractor, his supervisory personnel, office staff members, drivers, and aides must treat student information obtained through the School District with strict confidentiality and such information shall not be disclosed to any other person.

Knowing that children with special needs require patience and flexibility greater than that of regular transportation routes, suitability for assignment to the Special Transportation routes is a key consideration. The contractor
should take special care in assigning people who will best serve these special children. The board of education may require reassignment when necessary.

**PUPIL SUPERVISION**

Lakewood Township Board of Education delegates to the Contractor the necessary authority to supervise students and maintain order on buses and vans in accordance with the Lakewood Township School District rules.

While buses are in service to the School District, there shall be no smoking on the bus at any time. Additionally, eating food on the bus and playing music radios are also not permitted unless special, specific permission is given by the school’s Principal and no safety issues arise.

**SCHOOL CANCELLATION, DELAYED START OF SCHOOL, AND EMERGENCY PROVISIONS**

1. The Superintendent, or his/her designee, shall have the sole responsibility of altering, delaying or canceling the service during inclement weather or for any other reason. The Contractor agrees to abide by the decision of the Superintendent, or his/her designee, and operate on the assigned schedules and routes. Any obligations the Contractor may have to other School Districts must not interfere with any schedule being used by the Lakewood Township Board of Education on any given day, inclusive of inclement weather emergencies. The School District expects the Contractor to be “on time” regardless of the schedule the School District is required to use on any given day. Per Diem fines will be applied to any route that is reported late on these alternate scheduled days. Contractors are expected to be prudent with the sharing of their services between districts. Should they choose to share their buses between different school districts, they must allow for sufficient contingency plans to fully and timely fully meet their obligations to the Lakewood Township Board of Education on these alternate scheduled days.

2. The Contractor shall also be responsible for providing regularly scheduled buses every day school is in session, including when schools are closed early on any school day due to inclement weather
conditions or other emergencies declared by the Superintendent or his/her designee. It is understood that time is of the essence in providing such buses, and that such buses will be provided as soon as possible. Again, the Contractor knows bad weather days are inevitable and they should have appropriate planning in place to assure on time continuity of services everyday school is in session.

3. The Contractor understands that the nature of the Lakewood Township Board of Education’s state-mandate to provide school buses to nonpublic schools based on their approved schedule will sometimes require that the Contractor’s drivers assigned to those non-public schools will be required to work on holidays. Please keep this in mind when bidding and staffing.

RIGHT OF THE BOARD TO REVIEW THE OPERATIONS OF THE CONTRACTOR

1. The Board reserves the right at any time and at their discretion, to review the operations of any contractor servicing Board routes. This will be done as many times as necessary to ensure the safety and timeliness of the Districts’ children that are transported. At the very least, it will be done once a year for each contractor’s Bus Operations site.

2. Furthermore, the buses of any contractor may be boarded by a supervisor from the board to review any concerns for the safety of the children. The district’s transportation supervisor may, at their discretion, choose to ride along on the route to review concerns with any part of the service being provided.

3. The maintenance and inspection records of any bus, along with the training/credential files of any driver servicing the Board may be immediately reviewed at any time, either in the Board’s offices or on the Contractor’s premises.

4. Penalties for noncompliance on any route by a deficient bus, driver or operational service will be imposed and the daily amount equal to the per diem rate or $300.00 per day (whichever is greater) for each affected route shall be forfeited. Severe deficiencies that could compromise the safe transport of the children may warrant a complete “breach of contract” for the subject contractor for all of their contracted
routes and subsequent bond relief to the full extent allowed by the terms of the bid and state law. Disqualification procedures may follow.

5. The Contractor must provide emergency contact information that will allow communication with someone in authority within the contractor’s supervisory structure at any time students are on the contractor’s bus that is servicing a Lakewood Board of Education route or trip. Failure to have a supervisor answer a Board’s call for help when students are on board any of the Contractor’s buses or reported missing will be deemed a serious service failure and subject the contractor to a fine of $300 per “no answer” incident. Documented repeated “no answer” incidents may be considered a breach of contract and subject the contractor to a disqualification hearing before the County Superintendent.

ADDENDUM #2

LAKEWOOD TOWNSHIP BOARD OF EDUCATION

School Bus Driver and Bus Aide Code of Conduct

1. Every school bus driver shall thoroughly familiar with all state, local and School District rules and regulations pertaining to the operation of the school bus in his/her charge. Any driver found guilty of a moving violation of four points or less will be placed on probation for three years (same length of time the points stay active). During this three-year probation, if the employee has any new violation of four points or less, they will be issued a two-week suspension, effective immediately from the time of pleading or being found guilty. Any violation of 5 points or more will require an immediate letter of notification being sent to the Lakewood Township Board of Education’s Transportation Department for review by the Board of Education’s Transportation Committee. The committee will determine the appropriate response which could include immediate suspension or termination. Any driver who has 5 or more active points on their license (cumulatively) will also require immediate notification to the Lakewood Township Board of Education’s Transportation Department for a similar review as previously mentioned. If the Contractor fails to
apply due diligence in their mandated review of their bus drivers’
driving records and thereby not provide the Lakewood Township Board
of Education with the aforementioned notifications, this will be
considered a breach of contract and subject the Contractor to penalties
determined by the Lakewood Township Board of Education as
appropriate that could include fines, cancellation of the contract and/or
disqualification as a qualified bidder as described in New Jersey
Administrative Code 6A: 27 et seq.

2. No “HOUSE STOPS” that are not specifically noted on the routing
instructions received from the Board of Education will be made without
the written direction of the Lakewood Township Board of Education
Transportation Department.

3. No school bus driver shall allow a passenger or other
unauthorized person to operate the school bus at any time, nor shall
any person except the driver be allowed to sit in the driver’s seat. No
school bus driver shall leave the driver’s seat without first setting the
brakes, shutting off the motor, placing the bus in park, and removing
the ignition key from the lock. The keys shall be kept in the driver’s
possession at all times.

4. School bus drivers shall have the primary responsibility for the
safety of passengers while they are boarding the bus, while they are
on the bus, and while they are disembarking the bus and crossing the
roadway. If passengers must cross the road, the driver shall take
reasonable action to assure that they cross safely. The driver shall
take reasonable action to assure that passengers boarding or
disembarking from the bus are within his/her view at all times and that
they pass in front of the bus and never behind the bus.

5. No school bus driver shall leave the immediate vicinity of his/her
bus while there are passengers aboard. In the event of the bus
breakdown, assistance shall be sought in accordance with the
Lakewood Township Board of Education district policy.

6. School bus drivers shall pick up only the students and persons
designated by an authorized School District administrator.
7. No student is permitted to leave the bus at any stop other than his or her regular bus stop, unless specific “WRITTEN” permission is first obtained from the School Administrator or the Lakewood Board of Education Transportation Department.

8. School bus drivers, prior to commencement of any trip or route, shall assure that the windshield and rear window of the bus are clean, as well as, all aisles and emergency exits being clear at all times of any obstructions. Additionally, the driver must review all emergency procedures with the children and teachers (when present) to insure everyone will know what to do during an emergency. **FORMAL STATE-MANDATED DRILLS ARE TO BE PERFORMED TWO TIMES EVERY SCHOOL YEAR.**

9. The driver’s personal items shall be stored in appropriate compartments away from student access or contact.

10. School bus drivers shall be certain that all brakes, lights, stop signs, warning signal lamps, and other safety devices are working properly before starting on any trip and shall insure that the bus is equipped with a first aid kit and a fire extinguisher. The New Jersey Motor Vehicle Commission (NJMVC) approved pre-trip checklist should ALWAYS be used whenever driver uses any bus for the first time each day.

11. School bus drivers shall check the latch, safety lock and warning system for emergency doors daily. No bus may be operated with passengers aboard if the emergency exit is not functioning properly.

12. No bus shall be in motion with any of the exit doors open or partly open.

13. School bus drivers shall immediately report to their supervisor, as well as the supervising teacher when out of the local area, any suspected malfunction or needed repair of the school bus in their charge.
14. School bus drivers shall observe all driving regulations set forth in the laws of the State of New Jersey relating to the operation of motor vehicles and school buses at all times. It is the obligation of the bus driver to be familiar with ALL laws and regulations pertaining to the operation of the school bus. Bus companies must perform ongoing training and safety reviews at least once a month at a mandated safety meeting for ALL drivers and bus aides. A copy of the minutes of those meetings must be submitted to the Lakewood Township Transportation Office within 48 hours of the actual meeting date.

15. The speed of the school bus shall not be allowed to exceed the legal truck speed or any other applicable posted speed limit.

16. School buses should try to avoid passing other vehicles on single lane roadways. When it’s actually necessary to overtake and pass a slow moving vehicle, school bus drivers shall take reasonable action to assure that no third vehicle is drawing near. There shall be a clearance of at least 800 feet before attempting such a maneuver.

17. All buses shall slow down to 10 miles an hour or less and give the proper signal before making a 90° right or left turn.

18. The speed of the school bus shall not exceed 10 mph when passing another school bus which has stopped to load or unload students when loading or unloading may be done without the use of the stop sign and warning signal lamps (as in a school yard). Extreme alertness and caution should be exercised in these situations.

19. School bus drivers must do a “WALK BACK” check after EVERY route has been completed before leaving the school or last drop-off stop. If there is a Bus Aide on board, the driver must turn around and observe the Bus Aide performing the walk back. If any child is left on board after leaving the drop off school or the last bus stop of the route, both the driver and aide will be held equally culpable.

20. No school bus driver shall ever use cruise control if the vehicle is so equipped. They must always have full control of their vehicle at all times.
21. Backing a school bus is to be avoided whenever possible. When backing up is absolutely necessary, the driver shall have the students onboard while the backup is completed. Backing up should not occur without the assistance and direction of an additional adult, preferably a School District or Contractor employee.

22. School bus driver shall yield the right-of-way to emergency vehicles.

23. All school buses shall stop at all railroad crossings except:
   a. where traffic is controlled by a police officer or duly authorized flagman;
   b. where there is an “EXEMPT” sign over the railroad crossing sign.

24. Drivers should give warning to motorists of their intent to stop at a railroad crossing by engaging their 4-way flashers.

25. No bus shall stop on a curve or a hill where visibility is not adequate and may jeopardize the safety of their student passengers.

26. All changes in the direction of the school bus shall be indicated by the use of electrical directional signals on the bus. The right directional signal shall be used to indicate anytime the bus is going to pull off the roadway.

27. The school bus driver MUST use their overhead warning lights as prescribed by NJMVC law for EVERY bus stop when children will be loading or unloading except when specifically waived by NJMVC law. Refer to the NJMVC School Bus Manual for specific rules and regulations. Drivers must exercise extraordinary vigilance at all times and especially when children are attempting to cross the roadway.

28. No school bus shall pull over to the left-hand side of the road to load or unload.
29. The stop sign on the left side of the school bus shall not be used to indicate that the bus is going to stop without actively picking up or discharging students.

30. School bus drivers shall proceed with caution whenever entering or leaving school property.

31. Bus aides shall attend to the special needs of students, maintain order on the vehicle to ensure the safety of all students, assist students getting on and off the vehicle as needed, and other duties which may be specified by the Board of Education. The bus aid must meet the child outside the bus service door and walk behind the child as they enter the bus. The Aide will assist the child with their seat belt and ensure that the child is comfortable and secure prior to the bus moving. At the end of the route, the Aide will walk ahead of the child and assist him/her as they exit the service door. They will always ensure the child is safely “handed-off” to a responsible party.

32. School bus drivers should always have complete control of their buses at all times. Children must be seated and behaving reasonably at all times. Failure of the student to comply with the Lakewood Township School Bus Passenger Code of Conduct shall be reported immediately to the building administrator via a written disciplinary written Disciplinary Write-up that contains all factual information as indicated.

33. Any reference in the “Code of Conduct” document to a bus driver will also apply to a bus aide. Additionally, this “Code of Conduct” will apply to the mechanic or supervisory personnel who may occasionally drive or ride on the school bus when required. Anything not contained in this code of conduct that would be considered necessary for the safe transport of students is considered a part of this document by using good practices and common sense at all times.

34. Finally, both the School Bus Driver and the School Bus Aide must always act in the best interest of their student passengers. To the extent that any action, or lack of action by either the School Bus Driver or the School Bus Aide creates a dangerous, unsafe or inappropriate
condition upon any student passenger, it will be deemed to be contrary to this code of conduct and subject the School Bus Driver or School Bus Aide to possible disciplinary actions as determined necessary by the Board of Education or its designee, that may include reassignment, suspension, termination and/or prosecution by the appropriate government authorities.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - of the public entity awarding the contract
  - of that county in which that public entity is located
  - of another public entity within that county
  - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
• IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Statement of Ownership Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

1 N.J.S.A. 19:44A-3(s): “The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.l) for the purpose of receiving contributions and making expenditures.
