FUNDRAISING

The Board of Education attempts to provide an adequate budget for necessary equipment and uniforms. From time to time coaches see the need for items that are not budgeted. Fundraising is a possible way of procuring the necessary money.

Guidelines:

1. The Director or building administration person is responsible for coordinating fundraisers. The Director must approve all fundraising activities before students are involved and money changes hands.
2. All monies must be turned into activity account coordinator.

PROCEDURES DURING AN ALTERCATION

In competition, a coach should defend the rights of the team at all times, but not in open and flagrant conflict with officials or opposing teams. Disagreements with officials should be conducted in a professional manner. This will prevent inciting players and spectators, as well as improving any chance of overturning an official decision or ruling. The NJSIAA is quite explicit in outlining the coach's role in any type of disturbance at a game, and his/her responsibility in helping to control the situation rather than contributing to it. Always be discreet in reprimanding student-athletes in the presence of spectators and teammates.

Guidelines:

1. The Head Coach should immediately come to the aid of the officials in restraining the combatants.
2. The assistant coach(es) should attempt to make certain that no player leaves the bench area under any circumstances.
3. In the case of only one coach in attendance, the coach should first keep the remaining players on the bench, then proceed to help the officials.
4. Each coach should review, at least twice during the season, the policy and the penalties to be assessed with his/her team should this occur.

PUBLICITY

All Head Coaches are responsible for providing the necessary information concerning press publicity for their individual sports. Head Coaches are required to enter their rosters, schedules and team information and to report their weekly results to njschoolsports.com. If you do not know your school code or encounter problems, please contact support@njschoolsports.com. Please check the accuracy of your team records, rosters and team information before the tournament cutoff date.

PLEASE NOTE:

1. Secure first and last names of every player on both teams before the contest (if needed).
2. Make note of Shore Conference and overall records before the contest.
3. Have your student reporter call if games are cancelled because of weather.

PUBLICITY IN SCHOOL AND LOCAL COMMUNITY

It is the responsibility of each coach to announce and post dates for team meetings and try-out practice dates. All students must have an equal opportunity to participate, and publicizing helps assure full exposure. Whenever possible, use the morning announcements, school bulletin boards and team webpages to publicize try-outs, upcoming games and game results. The teams and the school district can benefit from publicity within the school and local community. Student recognition is the responsibility of each coach. The coach must inform the Director of any recognition information that comes in so that it can be distributed, if necessary, to other areas. Note that you must have the approval of the Director before distributing information to the students regarding recognitions.

RECRUITING

Coaches should make every effort to encourage or recruit more students to participate in his/her sport. However, there should be no effort to recruit or lure students from other sports taking place during the same season. Athletics is voluntary and the student should be free to choose. We must not attempt to influence an athlete to select one sport over another. If your opinion is requested, give the student or his/her parents your honest opinion. Be certain that all of those involved understand that this is strictly your opinion and does not necessarily guarantee success. In some cases, you may find a student-athlete is undecided as to what activity he/she should enter. Despite the fact that it may cost you a student-athlete, tell him/her truthfully what you think his/her chances will be. If you believe he/she will be much more successful in another activity, do not hesitate to indicate so. The important thing is participation.

Recruiting of the athletes from other schools is prohibited. This includes elementary school, middle school and other high schools. However, participation in program presentations, planned by the Director, at the middle school is encouraged.

REMOVING TEAM FROM PLAYING FIELD/COURT

Article IX N.J.S.I.A.A. Handbook (p.40) Section 2.F

“Coaches must be cautioned not to refuse to play or complete a game/meet. Such decisions are within the jurisdiction of the game/meet officials once game/meet has started, or rest with home management and/or tournament director if the game/meet has not started”.

Hazing - Article IX, Section 2E

Penalty – Any school whose coach violates Section 2.E shall be placed on probation by the Association for not less than one year from the date of violation, and shall not receive championship recognition from this Association in that sport, or enter any championship games, matches, meets, or tournament sponsored by the Association in that sport unless the N.J.S.I.A.A deems sufficient administrative action has been taken against the coach. Conditions of probation are outlined in the Bylaws, Article X, and Section 2.A. Probation. The coach is subject to the policies of the Lakewood School District.

SUPERVISION AND LOCKER ROOM SECURITY

In order to avoid damage or theft in the locker room facilities, the following should be followed by the coaching staff. These suggestions are for your own protection as well as the student-athletes and facilities.

1. All coaches are to remain in the building until all athletes have left the building/grounds. Student-athletes waiting for rides are to wait outside of the school building. If a student-athlete must wait inside of the building because of the weather, a member of the coaching staff is to be assigned to remain with him/her.
2. Doors, wherever possible, should be locked including lockers and the locker room. All coaches are to encourage student-athletes to make use of combination locks on their lockers while practicing or competing in athletic events.
3. Any athletic injury treated by use of the whirlpool may be done so only if the Athletic Trainer or Coach accompanies the athlete into the training room.
4. When student-athletes are present, at least one member of the coaching staff should be assigned to the locker room area for supervision at all times. It's the responsibility of each coach to supervise their team in the locker room.
5. Student-athletes may not use the Team Rooms during the regular school day without the coach's supervision.
6. Lockers in the locker rooms should be used during practice or game hours only.
7. Please direct student-athletes that showers are to be turned off before leaving the locker rooms.
8. **Do not give keys to student-athletes to unlock any area.** If a situation arises where the student-athlete must use your keys, remember to retrieve them immediately.
9. Student-athletes should not roam freely through the building after/prior to practices. Instruct student-athletes as to the time supervised locker rooms will be open, and to leave the building at the conclusion of practice/game. Note that if the athletes leave materials, equipment, etc. outside the locker room it is the coaches' responsibility to secure the materials.

TRAVEL (away contests)

1. Early dismissal – email roster to the Athletic Office at least 48 hours in advance. **All early dismissals must be approved by the Administration.**
2. Attendance will be taken on the bus, prior to departure, and prior to return. Student-athletes can only be released to parents/guardians at away events if a travel release form is completed. It is strongly urged that all student-athletes return with the team to the school. Student-athletes wishing to be picked up by parents/guardians must have prior approval.
3. The coach will check the locker room, prior to the team entering and before leaving for home. This will insure that no criticism could be made of his/her team's use of the facility.
4. Student-athletes should be instructed on proper bus conduct. Only students on the roster may be permitted to ride on buses.
5. A coach should be the last person off the bus upon returning to the school and check for any damage or equipment left behind.
6. A coach must submit a list of student athletes and managers traveling on the school bus to the Office of Athletics, the building administration and the trainer (if applicable). If an emergency occurs, we will know who to contact.
7. It is mandatory that head coaches ride the bus to away games with the team unless cleared by director.

WEEKEND USE OF FACILITIES

Please be advised of the following when use of locker room facilities is needed for both planned athletic events or practice activities on weekends or other days when additional custodial coverage is needed because school is not in session.

1. Athletic facility use requests must be turned into the athletic office **a week or more** prior to the date or dates requested.
2. No athletic facility use request forms are needed for scheduled athletic events as they are planned by the Office of Athletics.
3. On Saturdays or other days when school is not in session, student-athletes under their coaches supervision will enter the building by way of the athletic locker rooms or nearest doors. The coaches are in charge of opening and locking doors when all participants are out of the building.
4. While in the building, student-athletes are restricted to the gym and locker room areas unless accompanied by a coach.
5. Coaches must remain with their student-athletes until all those under his/her supervision have left the building/grounds.

MISCELLANEOUS

- A. Any keys assigned are a pass to a considerable amount of valuable equipment. Guard them closely. **The keys must not be duplicated.** See key registration form.
- B. Each coach is responsible for keeping all offices and other room doors closed and lights out which they have accessed. The last coach out of the building is responsible for checking windows and outside doors, unless other arrangements have been made. Do not permit student-athletes in the locker room without supervision. Offices and locker rooms must be kept neat and clean at all times.
- C. Athletic staff meetings will be held when necessary. If a coach would like to institute a staff meeting, please notify the Director with the proposed agenda items.

DISQUALIFICATIONS

Coaches must report ejections immediately. Any coach or player ejected from a game will be suspended for two additional games, one game in football, as mandated by the NJSIAA. In addition to these suspensions, each coach or player will meet with the Director. At this time further suspensions and penalties may be enacted. In case of subsequent ejections, suspensions will be appropriated in accordance with the NJSIAA's rules and regulations. The school administration will review these ejections. The school reserves the right to enact further disciplinary actions for any ejection.

After the second disqualification of an individual, the penalties are doubled. After the third disqualification, possible ineligibility from athletics may result for part or all of the remainder of the school year.

If a 12th grade student is disqualified from the last contest of the season, he/she must sit out 2 regular-season games in his/her next sport participation. An underclassman, when disqualified, must sit out the next 2 regular season games in that sport, even if the suspension extends to the following season.

PLAYING TIME – FRESHMAN/JV/VARSITY OR MIDDLE SCHOOL

It cannot be emphasized enough that if a player makes the team he/she should play. An up to date roster must be on file in the Director's office at all times for each sport.

On the Freshmen, JV, and lower levels, the emphasis is on player participation and not necessarily on win-loss records. On the varsity level, while wins and losses are more important, every effort must be made to have each player be a significant part of the team.

In matters dealing with team management, each coach should make all efforts of identifying what role each player will have in the program. This should include playing time.

REPORTS

Game reports are to be handed into the Director within 24 hours following the competition. Team information and reports will now be submitted by each coach at each level onto their webpage. All information, including, but not limited to scores, season recaps, rosters, calendars and updates will be the responsibility of the coach to keep up to date on their webpage.

SCHEDULING

All scheduling will be done through the Director. Coaches may assist in the securing of opponents for open dates only with prior approval. Only games, which are finalized through the opponent's Director, not a coach, will be considered binding and valid. It is the responsibility of each Head Coach to discuss all scrimmages with the Director. A pre-season scrimmage schedule must be presented to the Director so that confirmation can be made at least four weeks prior to the start of the season.

SECURITY

The Director will distribute athletic facility keys to those school personnel who use the building in season, if applicable. At the end of each season, the keys must be returned promptly to the Director's office. A return document must be signed and dated by the coach and the Director. Advise students to minimize the possibility of losing property by keeping valuables locked and by keeping equipment and belongings together in a locker. Common sense and caution will prevent many problems.

SPECIAL EVENTS AND PEP RALLIES

Coaches are encouraged to have planned special events appropriate to their sport. These should be done periodically throughout the season. All special event plans must be reported to, and approved by, the Director.

Pep rallies/assemblies will be organized for each sport season. The planning and implementation of these events are the responsibility of the senior class president, principal, and the Director. The coaches of the teams in season are expected to cooperate with the planners in any way necessary to make the rally a success.

If student athletes are going to speak or do a skit type activity, the coach should review what is to be said and done to insure appropriateness on the behalf of the Athletic Department.

TEAM MEETINGS

Coaches should hold a minimum of three team meetings per season. The first two meetings should be held before practice begins to explain to potential players and parents of the players the requirements and responsibilities of participating in that sport at that level. By clearly explaining team membership requirements prior to the start of the season, coaches may avoid conflict during the season. The second required meeting should be held following the season, to “wrap things up,” give coaches’ views on the season, present any team awards, explain out-of-season training and collect equipment. A coach can summarize the season and set a positive tone for the following year. The Director must approve any other meeting dates.

TEAM RULES/CODE OF CONDUCT

Each coach must establish his/her own set of team rules and accompanying penalties. These rules must have the prior approval of the Director. Each coach must put team rules in writing, and a copy given to each candidate to be signed and returned by the candidate and his/her parent/guardian. A copy must be given to the Director prior to the first athletic contest. Consistency by all coaches in the implementation of penalties is of utmost importance.

Each coach is responsible for alerting the Director when any team rule or Code of Conduct has been violated resulting in disciplinary action that could result in removal from the team.

The Board of Education is the final authority when disciplinary action is taken.

USE OF TWO-WAY RADIOS

- A. Two-way radios (transmitters) have been purchased to maximize communications in the event of an emergency. The following guidelines are to be followed to insure their proper use, care, and safety:
1. Coaches will be assigned a two-way transmitter by the trainer and will be responsible for its daily use and safe return each day. Whenever possible, a coach (team) will be assigned the same radio each day.
 2. The athletic office will be responsible for distributing the transmitters each season.
 3. The coach must keep the radio on his/her person at all times. To maximize communication and insure the safety of the radio, it is not to be left in the medical kit, on the team bench, etc. It should be attached to the belt or waistband of the coach’s attire.
 4. The coach/staff member should be the only person to use the transmitter unless the situation dictates otherwise.
 5. The coach must personally return the transmitter to the athletic office at the conclusion of the season. For security reasons and because they must be recharged overnight, radios are NOT to be left in the coaches’ offices or weight room. .

The procedure can pose some inconvenience, but remember that you are liable when injuries are not treated as promptly as possible.

PLEASE NOTE: The cost to replace a radio is approximately \$400. Please be careful not to damage or lose it.

MEDICAL-AWAY CONTEST PROCEDURES

In all cases when time is most important and hospitalization seems necessary, the coach will:

1. Contact the personnel of the host school and follow the emergency procedures of that institution.
2. If only one coach is present, he/she must remain with the team for the remainder of the contest and the trip home.
3. If an Assistant Coach is present and it seems necessary and advisable, he/she may accompany the injured athlete.
4. The student's parent/guardian must be informed as soon as possible. Notify the Athletic Trainer, Director or building administration if it is very serious.
5. On the day following the accident, the Athletic Trainer must be informed and an injury report filed in the Athletic Office. The Athletic Trainer will make contact with the school nurse to inform her of the situation. A report will be filled out by the Athletic Trainer.
