The board and administration do take all public comments seriously and consider them when conducting business.

The President may interrupt, warn, or terminate a participant's statement when the statement is too lengthy, abusive or obscene. In addition, Security Personnel may direct any individual to leave the meeting when that person does not observe reasonable decorum, whether the person is at the microphone or at any other place in the meeting room. **IMPORTANT INFORMATION:**

At its April 1, 2020, meeting, the State Board of Education adopted temporary rule modifications to Chapter 14 of New Jersey Administrative Code, which governs the delivery of special education and related services to students with disabilities. The State Board, acting pursuant to Executive Order No. 103 (Murphy, 2020), adopted temporary regulations that allow school districts and educational agencies to deliver special education and related services to students with disabilities through the use of telehealth, telemedicine, electronic communications, remote, virtual or other online platforms.

By modifying the rules to allow for special education and related services to be provided through these means, school districts and educational agencies will be better able to ensure that students with disabilities receive the services that they are entitled to under each student's individualized education program (IEP).

1:1 paraprofessional accommodations should mirror the classroom when applicable, when possible.

These rule modifications enhance the ability for educational agencies to satisfy their legal obligation to provide a free and appropriate public education to students with disabilities during a period of school closure resulting from COVID-19.

Payments with regard to Special Education will only be made with Superintendent, Supervisor of Child Study Team, State Monitor and Board Attorney review and approval.
